

Reform UK: for the rich & big business

Reform UK claims to stand for the “common people”. In reality, it works for the wealthy elite in Britain and the USA. The “party” is Private Limited Company, owned by two multi-millionaires: Richard Tice and supreme director, Nigel Farage. Most of its leading officers and donors are company directors, bankers or landowners.

Reform UK claims to support public services, while quietly pushing policies that would dismantle the NHS, education, local government and state pensions. Like his hero billionaire Donald Trump, Farage claims to be “anti-establishment”. Nothing could be further from the truth.

The real REFORM UK Agenda ...

PRIVATISATION Reform UK's “voucher” schemes would hand control of our NHS, schools and more to private companies whose only concern is making a profit off the backs of working people.

POORER LOCAL COMMUNITIES Reform UK calls for an end to Business Rates for most companies. Say goodbye to even more bus services, libraries, waste collections, road repairs & low-price leisure facilities.

MORE FOR THE RICH Reform UK also wants to slash taxes on top-rate incomes, company profits and inherited wealth. The richest 10% of people would scoop up most of the tax cuts.

A BAD DEAL FOR WORKERS Reform UK leaders have never supported stronger trade unions, more rights at work, fair wages for women and young workers, or an end to bosses' “fire and hire”.

DIVIDE AND RULE Reform UK targets refugees fleeing poverty, hunger and war, but welcomes white or wealthy migrants from Western countries, Ukraine and Hong Kong. Its real aim is to divide working class people and win votes through fear and prejudice.

CHAOS AND DISORDER Many Reform UK supporters backed the violent anti-immigrant riots across England in July-August 2024. **Their leaders stayed silent, hoping to benefit from social division. So much for the party of “law and order” ...**

Don't be fooled by Reform UK. Unite for jobs, communities & social justice!

Reform UK is not on your side. It is bought & paid for by wealthy, right-wing business figures.

Its policies will break up the NHS, privatise local services, ignore climate change and spread chaos and division in our society.

The Communist Party rejects Reform UK's bogus "British patriotism". Unlike Farage & Co., we reject US-NATO domination of Britain's foreign and military policy and economic domination by multinational corporations. Britain should have an independent foreign policy based on peace and cooperation, not war.

The Communist Party: for workers and the people!

***Communists are fighting for
real and fundamental change
for Britain, including:***

A FIRST-CLASS NHS including elderly care, eye, dental and mental health services. With an end to private profiteering and funded by taxes on excess wealth and profits.

DECENT HOUSING FOR ALL with a massive council-house building programme, limits on multiple house ownership and a levy on empty commercial and residential premises.

PUBLIC OWNERSHIP of the energy, public transport, steel, pharmaceutical, armaments, finance and other sectors of the economy.

GREEN INVESTMENT based on public ownership, strict gas and electricity price controls, massive investment in wind, solar, thermal and tidal power.

A FAIR IMMIGRATION SYSTEM with planning based on humanitarian law, social solidarity and economic need—not on race, nationality or personal wealth.

PEOPLE'S UNITY in a more equal Federal Britain, with more powers and resources for Scottish, Welsh and English parliaments and local councils.

AN INDEPENDENT FOREIGN POLICY not military alliances with Trump's USA, Arab dictatorships, Israel and right-wing regimes in the EU.

The Communist Party is Britain's Marxist Leninist party of the labour movement. Organised for socialist revolution, rooted in the working class, working for unity.
